**Thank you Sepulveda Building Materials Golf Tournament
for Elmer's sponsorship to help make a difference for a
person in need of a guide or service dog.**

Getting used to other handlers is important, especially for Golden Retrievers who tend to be loyal to one handler. This gives Elmer a chance to be able to build confidence in his training . He is staying with Orange County group leader Tammy.

OCFA Headquarters

Top left:
Elmer was the only GDA/TLC dog in training that would follow his "jump on" command.. I was being handled by OC leader Tammy and she was so proud of him.

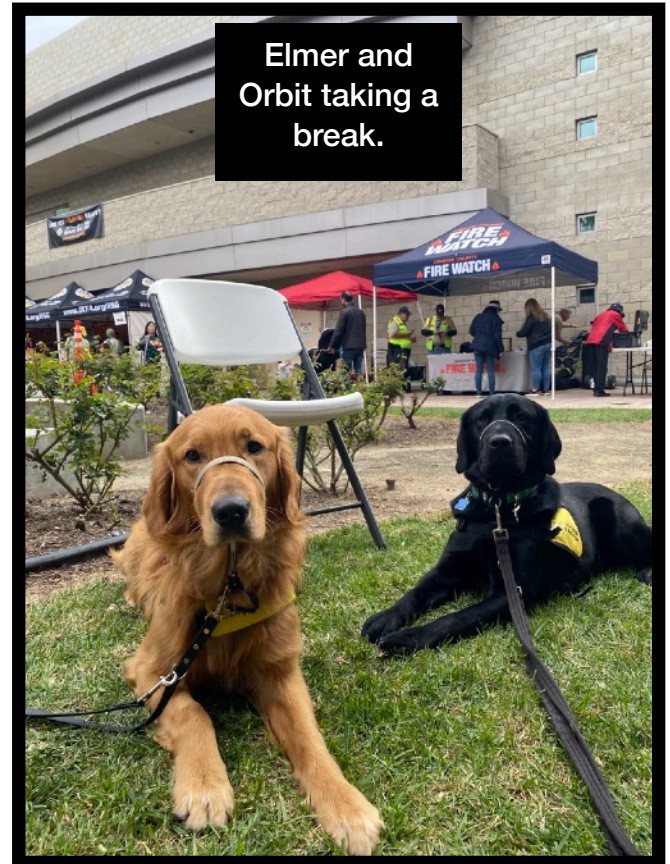

Top right:
Elmer had no fear of the statue and that's a big deal.

Bottom right:
Again Elmer followed his "jump up/on" command and settled in the fire engine. All the fire fighters were so impressed by Elmer's behavior. He got a lot of attention ..
