

Janie & Sepulveda family,

Gadget and I are excited to share the photos taken throughout this last quarter. The photos shared are of our most memorable outings, and training opportunities.

Gadget is such a wonderful puppy. Mark & I feel blessed to be his raisers, and to have you as our sponsor.

Gadget is incredibly sweet and playful but has strong work ethic too. When he is working, he focused and a quick study too. When he plays... he is quite focused on having fun and being the life of the party. When Gadget is playfully playing clown for his friends & family, we lovingly remind him his "Golden is showing". Gadget is 75% Golden & 25% Lab.

I think Gadget is a strong representation of both breeds greatest qualities.

We hope you enjoy the photos and can see how hard he works daily. We are hopeful to one day to see him walk across the stage as a graduate, knowing all his hard work paid off.

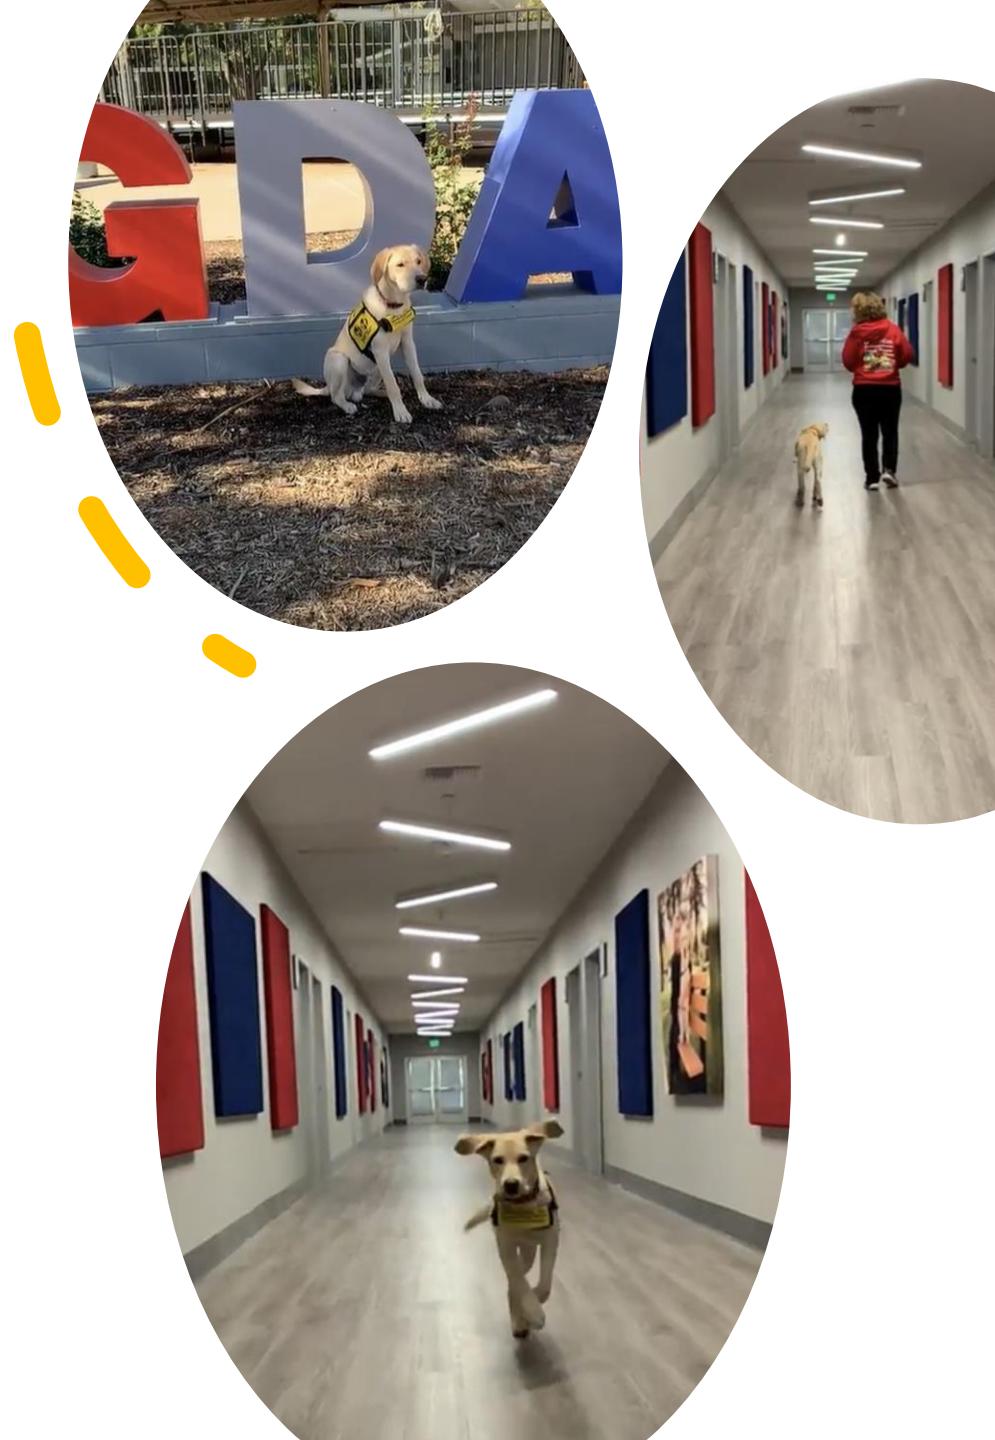

Thank you again and enjoy!

- Gadget rides the bus to Downtown Disney with 25 other service dogs. (Gadget is the first dog on the right, wearing a head collar)

\*The Halti is Head Collar is being introduced program wide. This is a wonderful tool that will make dog handling easier for most of our clients.

Thank you for continued support of GDA and Us. Your sponsorship means the world to us. Gadget proudly wears your Sponsor jacket everywhere we go.

Gadget works very hard practicing his obedience cues and is always a model canine when out and about.

We hope you enjoyed our photo journal of the past quarter and look forward to sharing more adventures.

Thank you again for your support. Gadget is doing his best to learn everything required and become a successful service dog.
